SOLD

Looking for a Townhouse in MIJAS PUEBLO? This property is three levels, with outdoor terrace and large outdoor basement level, underground store AND A GARAGE!

GROUND (ROAD) LEVEL

Enter from the street into a sitting area, through to a connected living room and then to the kitchen at the back of the property.

From the kitchen door, you exit to a separate bathroom (shower & toilet). Stairs take you down to the lower basement style level that is a large terraced space as well as two separate underground spaces for storage or as extended outdoor living spaces.

UPPER LEVEL

This level consists of Two bedrooms, a double and a twin room and a fully functional bathroom (that is ready for renovation).

A roof terrace opens up from the twin room.

A garage is included and located close by in the next street, with the possibility to renovate to provide a direct access to the townhouse.

A great investment property for a holiday home or as a permanent abode, as it is walking distance to all the amenities. However, this is a traditional townhouse with stairs to the upper and lower levels so those that experience mobility issues may not find this property suitable.
